

YOUR PRUHEALTH HOSPITALS

Your PruHealth Hospital Network

As a PruHealth Member you have access to one of the largest collections of private hospitals in the UK. Should you ever require treatment, our extensive nationwide network will provide fast access with the highest quality of care.

There are three hospital networks to choose from, these are National, London and Premier.

At our National hospital network, you'll be able to get treatment at the listed hospitals which are outside of the London area. Our London hospital network offers you the choice of using any of the hospitals in the National or London network. At our Premier hospital network you can be treated at any of the hospitals listed. The Premier hospitals are located in prime London locations and offer the highest standards available in private healthcare.

In addition to the private hospitals available in each network, you will also be able to receive treatment at any NHS hospital that offers private wards or pay bed facilities.
